### 2.1 FTSE International Limited (FTSE)

2.1.1 FTSE is the benchmark administrator of the index series.<sup>1</sup>

2.1.2 FTSE is responsible for the daily calculation, production and operation of the index series and will:

- maintain records of the index weightings of all constituents;
- make changes to the constituents and their weightings in accordance with the Ground Rules;
- carry out the periodic index reviews of the index series and apply the changes resulting from the reviews as required by the Ground Rules;
- publish changes to the constituent weightings resulting from their ongoing maintenance and the periodic reviews;

### 2.2 EPRA and Nareit

2.2.1 EPRA and Nareit are responsible for conducting the analysis of financial statement related eligibility tests including the EBITDA test for potential and current constituents in order to establish their eligibility for inclusion in the FTSE EPRA Nareit indices and their allocation to the emerging and developed sub-series. EPRA and Nareit will also determine a constituent's Investment Focus segment and classify each constituent by Property Sector.

2.2.2 EPRA and Nareit also provide research, guidance and clarification with respect to certain aspects of the structure, operations and financial reporting of companies that may bear on their index eligibility, as well as to regulatory requirements pertaining to certain companies that may restrict some investment Organisations from investing in such companies and the equity indices that include them as constituents.

<sup>1</sup> The term administrator is used in this document in the same sense as it is defined in [Regulation \(EU\) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds](#) (the European Benchmark Regulation) and [The Benchmarks \(Amendment and Transitional Provision\) \(EU Exit\) Regulations 2019](#) (the UK Benchmark Regulation).

After making any such determination, FTSE Russell shall advise the market of its decision at the earliest opportunity. Any such treatment will not be considered as an exception or change to the Ground Rules, or to set a precedent for future action, but FTSE Russell will consider whether the Rules should subsequently be updated to provide greater clarity.

## Section 4

# Annual review of constituent companies

---

## 4. Annual review of constituent companies

4.1 The FTSE EPRA Nareit Dividend+ Index Series is reviewed on an annual basis in September in line with the quarterly review of the FTSE EPRA Nareit Global Real Estate Index Series.

### 4.2 Annual review (index review cut-off date)

4.2.1 The annual review will use data based on the close of business on the Wednesday before the first Friday of September, taking into account constituent changes in the September quarterly review of the FTSE EPRA Nareit Global Real Estate Index Series.

### 4.3 Annual review (implementation date)

4.3.1 The annual review will be implemented in September after the close of business on the third Friday (i.e. effective the following Monday), in line with the FTSE EPRA Nareit Global Real Estate Index Series.

### 4.4 Review methodology

4.4.1 Within each review universe constituents that have a forecast/estimate one-year dividend yield (see Rule 4.5) of two per cent or greater are eligible for inclusion into the Index Series. If a forecast/estimate one-year dividend yield is not available, FTSE Russell's historical dividend yield data is used.

4.4.2 If a constituent of the index has a forecast/estimated dividend yield of less than two per cent then it will be ineligible for inclusion and will be deleted from the index.

4.4.3 The FTSE EPRA Nareit Dividend+ Index Series constituents are not fixed at review so can change in number prior to the next annual review.

4.4.4 The FTSE EPRA Nareit Dividend+ Index Series constituents are screened for liquidity in line with the FTSE EPRA Nareit Global Real Estate Index Series review.

4.4.5 Adjustments in stock weightings (including free float and shares in issue) will be in line with the FTSE EPRA Nareit Global Real Estate Index Series.

### 4.5 Forecast/Estimate One-year Dividend Yields

4.5.1 The dividend yield data used in the review calculation is based on one-year dividends per share forecast/estimates from I/B/E/S Estimates. For the review universe constituents that do not have this information, FTSE Russell's historical dividend yield data is used. To be able to rank the review universe the one-year dividends per share forecast/estimates are divided by the underlying FTSE stock price at the index review cut-off date. I/B/E/S Estimates data is taken as of the index review cut-off date.

## Section 5
